Bryan Republican, was among the callers at Democratic headquarters today. Dr. Croffut, who is widely known as a writer and lecturer, in discussing with a Times man his reasons for refusing to support

'I am a Bryan Republican this year. "I am a Bryan Republican this year. Why? Because the leaders of the Republican party are recreant to their trust and have abandoned the principles on which the party of Abraham Lincoln was founded. That party was distinctly founded on the Declaration of Independence. It afthe Declaration of Independence. It al-firmed over and over again that all men have an equal right to freedom and that all governments derive their just power from the consent of the governed. This year for the first time, such panderers of tyranny as Mark Hanna and T. C. Plate affirm that only some men are created free and that the declaration that governments derive their just power from the consent of the governed 'is not true and the consent of the governed 'is not true and the consent of the governed 'is not true and the consent of the governed 'is not true and the consent of the governed 'is not true and the consent of the governed 'is not true and the consent of the governed 'is not true and the consent of the governed 'is not true and the consent of the government of the consent of the government of the government of the government of the consent of

So we go into the colonial business We buy the Philippine Islands from a rotten monarchy that does not own them and cannot deliver them. Our officers delude the people of those islands into a belief that it is their independence we are fighting to establish. We lie to them, cheat them, and then, after deliberately and specifically making them our allies, we fire them, and then, after deliberately and specifically making them our allies, we fire upon them! We chase them to the swamps and mountains. We bombard their towns. We burn their wretched huts. We slaughter their unarmed people. We send out a company armed with Mausers and it comes back boasting that it has slain ninety-two Filipinos without the loss of a man! Oh, shame! shame! And the Republican party in convention has approved of it! "And how is all this to end? How are

Republican party in convention has approved of it!

"And how is all this to end? How are these 10,000,000 brought under our flag to affect American labor? They are glad to get 15 cents a day for their work. They grow and make all that they consume. What 'customers' these people will be for our farmers and factories?
"I am for Bryan this year without the slightest regard to the subordinate issues of the Kansas City platform. Of what consequence is the currency question when the life of the Republic is at stake? Everybody issued shinplasters during the Revolution, and the patriots limped and stumbled along to the end without reforming the currency. When the civil war of 1881 broke out the country was flooded with 'wildcat money,' but it was not mentioned in the platforms.

"The question now is, can the United States hold colonies and subject vassals to be arbitrarily governed by the military power, without the aid of Congress, and outside of the Constitution? If Congress is to govern them they must be under the Constitution, and without it has no existence. For the President to govern colonies is imperialism. McKinley has piled up crimes against human rights and against the Constitution that ought, long since, to have entitled him to impeachment. BRADSTREET ON THE WEEK. The General Fall Demand Still Be

low Expectations. NEW YORK, Aug. 4.-Bradstreet's to

"Trade conditions still favor the buyer. General fall demand, though fair in view of the mid-summer conditions, is still below expectations and below a year ag-Bank clearings are at the lowest for two years past and failures are slightly more numerous, though no marked tendencies are perceptible. On the other hand, gross railway earnings hold the percentage of gain previously shown and where prices are made low enough to satisfy buyers a heavy business is readily booked, pointing

to demand being still present.
"The industrial situation is a fairly encouraging one and wage scale arrangements, where made, are on equitable bases. The crop situation, as a whole, is better, the outlook as to corn is for a 2,100. 000,000 bushel crop. Spring wheat is turning out better in quality and quantity than expected and there has been an unquestionable improvement in cotton crop conditions. The yield of apples will be the largest for many years and fruits gen-erally are yielding liberally and realizing

good prices.

"The iron and steel industries furnish
the most notable example of reduced prices
inducing a heavy business, and, while the
outlook is still a confused one, the volume of trade in finished material, notably bars and plates, is very large. This has undoubtedly been at the expense of values, and less than 1 cent per pound for bars is said to have been made, though a leading concern, said to have started the cut,

denies the extreme concession.

"Foundry pig iron has been in better demand, but likewise at concessions, and the drift of crude prices generally is toward a lower level. More export enquiry

"Textile demand is still uncertain, the future of prices not being clearly outlined. Spring weight woolens have opened 5 to 7 per cert above last year, but are lower relatively than heavy weights. Manufacturers are somewhat freer buyers of wool, though low prices have been necessary to clinch business. In cotton goods, some irregularity is noted.
